

SPONSOR

A PROGRAM // A PROJECT // A CHILD

It's projected that in the next decade there will be about 1 million more U.S. jobs in the tech sector than computer science graduates to fill them. For over 25 years OSC's summer programs have played a crucial role in preparing the next generation of computer science professionals. **We need your help to continue these much needed programs.**

HOW YOUR SPONSORSHIP HELPS

PROGRAM //

By sponsoring at the Program level, your company helps to ensure that OSC's summer programs continue to provide a pipeline of computing experts and scientific innovators.

PROJECT //

By sponsoring at the Project level, your company helps to provide program participants with challenging projects and exciting educational field trips that inspire these great young minds.

CHILD //

By sponsoring at the Child level, you or your company help provide essential housing and meals to participants as they experience for the first time college dorm life.

SUMMER INSTITUTE

Celebrating its 25th anniversary, Summer Institute (SI) is a two-week residential STEM program for Ohio high school students entering their sophomore, junior or senior year.

SI students gain real-world experience in high performance computing and networking through hands-on training in programming and visualization. Students work in small peer teams under the guidance of scientists, and learn how to use computational science for practical applications.

YOUNG WOMEN'S SUMMER INSTITUTE

Entering its 15th year, Young Women's Summer Institute (YWSI) is a week-long residential STEM program for middle school girls entering their 7th- or 8th-grade year.

YWSI provides a foundation from which to boost girls' interest in science and technology, interlacing projects with information about education and career opportunities. YWSI students also live in dormitories on The Ohio State University campus, providing them an early college dorm like experience.

"SUMMER INSTITUTE IS AN EXCELLENT PLACE TO MEET OTHER PEOPLE WHO CARE ABOUT THE COMPUTING FIELD AND COMPUTATIONAL SCIENCE AND TO WORK WITH THEM IN SOLVING PROBLEMS AND PRACTICING FOR A LIFE DEDICATED TO SCIENCE AND ENGINEERING."

"I LIKED LEARNING ABOUT WATERSHEDS AND GOING TO THE BIG DARBY CREEK. THE WATERSHEDS WERE REALLY COOL! AND WE LEARNED SO MUCH VOCABULARY TO CONNECT TO WATERSHEDS, WATER QUALITY, AND ENVIRONMENTAL SCIENCE!"

Choose the level of sponsorship that best fits your organization!

PROGRAM SPONSOR \$10,000+

All Project sponsor benefits plus:

- Publicity at Welcome Reception and Closing Ceremonies
- Acknowledgment in OSC's digital and printed Annual Research Report
- Company internship or informational printed materials provided to all attendees

SPONSOR A PROJECT \$5000

All Child sponsor benefits plus:

- Publicity at Closing Ceremonies during project presentation
- Company logo included on all print and electronic materials
- Company cited in statewide press releases as major sponsor
- Publicity on social media postings

SPONSOR A CHILD \$1000

- Company or personal name listed in closing ceremonies program
- Link to sponsor URL on website
- Photo of summer program attendees
- Two invitations to all closing ceremonies

OTHER WAYS TO GIVE

- Volunteer as a speaker, chaperone or mentor
- Provide exciting technology based locations for educational field trips
